PROFESSIONAL PROFILE

I am passionate about developing innovative technologies, especially in the areas of IoT, intelligent systems, and AI. Having recently completed my Master's in IoT, I am beginning a PhD program to further my professional growth and contribute to high-impact, sustainable research. I specialize in embedded computing, edge AI, and autonomous systems designed for real-world deployments.

EDUCATION

PhD. program in Systems and Services Engineering for the Information Society (DISSSI)
ETSIST – UPM
October 2026 – Present

Master's Degree in Internet of Things (MIoT)
ETSIST – UPM
September 2025 – July 2026

Bachelor's Double Degree in Electronic Communications Engineering and Telematics Engineering
ETSIST – UPM
September 2019 – September 2025
1st Prize in Telematics and 3rd Prize in Electronics - XIX Edition of the COITT Awards "Future of Telecommunications"

Professional Music Degree (Cello Specialization)
CIEM Federico Moreno Torroba - Madrid
September 2014 – May 2021

EXPERIENCE

Research Support Technician
ETSIST - UPM
November 2025 – Present
- Development of management architectures for autonomous vehicles (UAV/UGV), coordinating complex missions with real-time dependency management utilizing ROS2.
- Applied research in Embedded AI for prescription map generation, deploying image analysis models onto low-power edge devices and hardware accelerators.

Researcher
GRyS Research Group - UPM
November 2025 – Present
- Participation in European and internal R&D projects aligned with Sustainable Development Goals (SDGs) and agricultural sustainability.
- Technical validation and system testing under ISO/IEC/IEEE 29119 international standards, ensuring quality in research environments.

R&D Intern
GRyS Research Group - UPM
June 2025 – September 2025
- Design and implementation of system prototypes within research projects.
- Rapid comprehension and adaptation to new methodologies and tools.

SKILLS

Others
Spanish - Native
English - B2 (TOEIC)
Driving License B
Drone Pilot A1-A3

Technical Skills
C, C++, Java, Python,
Git, GitHub, LaTeX, UML,
gRPC, ROS2, MariaDB, REST,
MQTT, ThingsBoard

Soft Skills
Teamwork
Organization
Perseverance
Diligence / Consistency
